

HW Martin Environmental Policy Statement

The Company undertakes five specific business activities namely Traffic Management, Fencing, Safety Fencing, Plant Maintenance and Waste Management. All five businesses operate from the base at Fordbridge Lane and are committed to protecting the environment.

OUR AIMS

The Company's aims and objectives are a commitment to continual improvement through constant review, in order to provide an effectively controlled environmental management system and services. Objectives and targets will be set and reviewed by management at the required and designated intervals.

The Company is committed to the following objectives:-

- Prevention of pollution
- Controlling and reducing emissions to the environment
- Focusing on energy consumption, with a view to reducing the depletion of natural resources
- Recycling and reclaiming materials
- Reducing waste to landfill
- Complying with legislation regulations and relevant Codes of Practice at all times.

MONITORING OUR PROGRESS – CONTROLLING THE PROGRAMME

We have developed an Environmental Management Programme to identify, then control the impacts identified. We employ specialists where necessary to assist with environmental matters. A Safety and Environment Manager has been appointed to assist and ensure that we adhere to this programme and address resulting actions identified through it.

We have included within our system measures to control abnormal and emergency situations.

It is our aim to also consult with our Client and their representatives, our sub-contractors and our suppliers to promote environmental awareness, to gain their support to meet our aims.

WORKING IN PARTNERSHIP

We will consult with Local and National Government bodies, enforcing and regulating authorities and specialists to seek advice and assistance towards achievement of our Environmental Management Programme to its full potential. We will, at all times, comply with regulations, legislation, codes of practice and other requirements associated with the Company and its operations. Where no laws, regulations or codes of practice exist, we will develop our own standards to allow for the best practical and financially viable environmental option, not entailing significant and detrimental costs to the Company, whilst considering public, local and interested parties' opinions.
